## WORK EXPERIENCE

### Software Developer | Proximify Inc.

Ottawa, Ontario - May 2021 - December 2021

- Designed workflows and built a cloud-based backend application called 'Knowledge Graph' using AWS services and NodeJS.
- Developed REST API mechanisms to securely connect and perform CRUD operations on KG.
- Integration of Knowledge graph with Elasticsearch designed for search engine functionality.
- Orchestrated the provisioning, easy modeling of AWS resources through cloudFormation service.

### Full Stack Developer | Virtusa Consulting Services Pvt Ltd

Hyderabad, India - June 2018 - December 2020

- Followed agile principles for delivering the work modules.
- Developed the client and server-side features using JAVA and Angular and then integrate them.
- Performed unit, regression testing and deploy the application through CI/CD pipelines orchestrated by Jenkins.
- Was responsible for documenting, reviewing the code of fellow teammates before pushing it to the code repository.

### Trainee Software Engineer | Virtusa Consulting Services Pvt Ltd

Hyderabad, India - November 2017 - February 2018

- Worked with PEGA, a BPM tool for building enterprise applications.
- Developed POC's on concepts like case management, UI validation, Email management.

## PROFESSIONAL SUMMARY

Results-oriented software engineering professional with 3 years of experience in the field. Well-versed with full-stack development and developing cloud-based applications. True team player with strengths in adaptability and working with cross-cultural teams.

---
